SUMMARY

Enthusiastic early-career technologist passionate about solving complex problems through technology. Skilled at researching, adapting, and applying modern development practices to deliver efficient and scalable solutions. Eager to contribute to meaningful projects, expand technical expertise, and continuously evolve as a developer in a supportive and innovative environment.

EDUCATION

Bachelor of Science in Computer Science
*Vi*vekananda College of Engineering and Technology, Puttur   *Sept 2022 - Aug 2026*
   B.E CSE in Data Science

- CGPA: 8.28
- Data Structures, Operating System, Theory of Computation, Computer Networks, Operating System, Design & Analysis of Algorithm, Big Data Analytics, UI & UX Design, Database Management, Artificial intelligence & Machine Lerning

TECHNOLOGY

Languages: C, Java, Python, SQL

AI & Data Science: Numpy, Pandas, Gradio

Data Anaytics: Tableau, Power BI, Hadoop,Excel

Cloud & DeveOps: Git & GitHub, Docker

Development: HTML,CSS,MongoDB, Figma

PROJECTS

Farm Fresh Bid- Mini Project

- Built a web platform to directly connect farmers with consumers, eliminating middlemen and ensuring fair prices for fresh produce.
- Implemented a real-time bidding system so buyers can place competitive bids, helping farmers maximize their earnings.
- Focused on creating an open, transparent marketplace to build trust and accessibility in the agricultural community.
- Technologies used: HTML, CSS, JavaScript, Django, Firebase.

CERTIFICATION

Diploma in Computer Application & Tally-Gst	Dec 2020
Programming using Java	June 2025
Data Analyst 101	April 2025
Basic SQL Course	March 2025
HTML & CSS BootCamp	July 2024
